Highlights

Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!

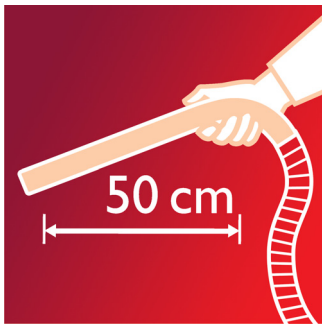
2000 Watt motor

2000 W motor generates max. 400 suction power for excellent cleaning results.

4L dust capacity

The specially designed 4L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

Extra long ergonomic grip



This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

HEPA 10 AirSeal Washable

HEPA 10 Filter and AirSeal capture the finest dust before the air is blown out for a dust-free environment and clean, healthy air.

S-bag Classic Long Performance

This new Philips synthetic dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high level of suction power and maximum filtration, up to the moment the dust bag is full and ready for disposal.
